In this our 75th year it occurs to us that it might not be amiss to explain briefly of our history and at least in part our insignia as we have had many inquiries regarding the insignia which appears above.

These Nurseries were established and first planting made in the Spring of 1873. There being three parties in the original establishment. One of these parties furnished the land, one handled sales and the third production. During the first years progress was difficult and no headway was made until about 1883. The greatest source of revenue during those years came from the production of Fruit Trees principally Pear Trees and still more specifically the Oriental variety of Pear. The insignia was a Pocket of Luck piece carried by the partner whose duties had to do with the selling of the products. The characters on this Luck piece or Coin donated its value which was quite minor inasmuch the first real financial advancement came from the production from Oriental Pear, principally the two varieties Kieffer and Leconte. He caused to be engraved on this Luck piece an outline of these two Pears. By mutual agreement it was adopted as the insignia of the Nurseries.

During the past 75 years various and sundry items have been added to our line. It now embraces perhaps as complete a line of desirable items of Nursery Stock as can be found in any one Nursery in the South but we still carry and lean toward those things that caused our initial success and enables us to continue throughout the years, namely: Oriental Pears. In this connection we last year offered at Retail and this year for the first time at Wholesale the new Oriental Pear, variety Orient. We believe that this variety has merit and a place particularly in Southern Plantings.

Throughout the years the aims of the Huntsville Wholesale Nurseries have remained the same. There have been but three Managers during the 75 years, the present management and entire ownership is in the son and grandson of one of the original founders, John Fraser.
